JSS POLYTECHNIC FOR WOMEN, MYSURU - 06

DEPARTMENTAL ACTIVITIES FROM JANUARY to SEPTEMBEER 2026

DEPARTMENT OF INTERIOR DECORATION

1) Workshop on preparation of Building Interior Model for Suttur Jathra Exhibition January 2026.

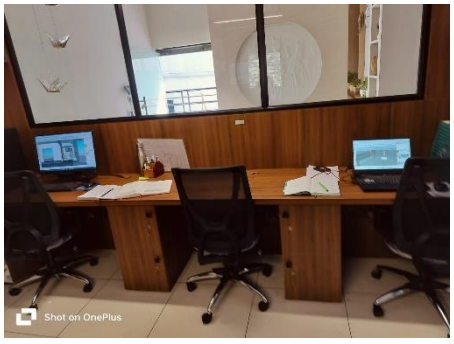
Interior Model of Sustainable office furniture was designed by students of Department of Interior Decoration to exhibit the drawings and model for the Suttur Jathra Mahothsava held between 15th January to 20th January 2026.

Making of furniture model by students

Exterior and Interior model view of a **"Sustainable Office"** Furnitures.

2) Site visit on "Office Interior".

A site visit for office interiors was organised for second year students on 8th FEBRAUARY 2026 at Design Hub in Saraswathipuram, Mysuru. It involved inspecting construction progress, identifying design discrepancies, and ensuring execution matches specifications, covering elements like ergonomic furniture, lighting, and layout.



Students are measuring the office furnitures on site.

3) Guest Lecture on **“Commercial Interior Space Planning”**

Guest lecture was organised on **"Commercial Interior Space Planning”** for Second year students on 21/02/2026 by Ar.Sharanya Jaydev Kalla, which covered the fundamental strategies, regulations, and design principles required to create functional, efficient, and aesthetic work environments.

4) Preparation and conducting for **“Open Day”**

Preparing and conducting a successful "Open Day" on 26/02/2026 by second year students which involved a structured, multi-stage process focusing on planning, promotion, execution, and follow-up. A well-executed Open Day creates a welcoming atmosphere, showcasing your organization's unique value proposition while offering interactive experiences.

Preparation of Building and Interior Models by students.

5) Site visit on **“CAFE”. 07/03/2026**

A site visit to a cafe was organised for a second year students on 07/03/2026 which provides insights into operational efficiency, customer experience, and ambiance. A successful cafe visit highlights the importance of welcoming, cozy, and aesthetically pleasing environments, frequently featuring green spaces and comfortable lighting.

6) Workshop on **Building Materials @ Nirmithi Kendra**

Workshops on building materials was organised for second year students on 02/04/2026 which offer hands-on training, expert lectures, and practical knowledge on traditional, modern, and sustainable materials for construction. These events cover material science, eco-friendly alternatives, and structural applications to improve durability and environmental impact, often providing practical skills for architects and engineers.

7) **Carpentry Workshop**

A Carpentry workshop was conducted on 11/07/2026 to provide students with practical knowledge of wood working techniques, students learnt about different types of wood, measuring and marking methods, cutting, joining, and finishing techniques. This helped students to develop practical skills, enhance creativity, and understand the importance of craftsmanship in construction and interior design.

8) **Activity on Interior Design**

Students prepared a furniture layout for residential building on 15/07/2026, created a mood board based on suitable materials, colours, and finishes developed a simple furniture model with dimensions for an interior space.

9) **Constructional site visit for final year students**

Constructional site visit was organized for the students on 18/07/2026, to observe ongoing building processes and techniques. This visit enhanced the students on site execution, materials, and construction methods in real practice. Knowledge of structural systems, safety measures, and site coordination, this makes bridging theoretical learning with real – world construction experience.

10) Guest lecture on **Preparation of Construction Execution on Residential Building**

A Guest Lecture on **Preparation of Construction Execution on Residential Building** was conducted on 05/08/2026 by Ar.Sanjana Nagar for the Final Year Students to enhance their knowledge of residential planning and design. The resource person explained the important aspects of space planning, room arrangement, circulation, and functional requirements in a residence project. Students learned about the preparation of plans, elevations, sections and presentation techniques. The session was interactive and helped students understand practical design considerations and project execution methods.

Interaction between Ar.Sanjana Nagar and the students

11) **Workshop on Theme Based Restaurant Design**

A Workshop on Theme Based Restaurant Design-Pankhi was conducted on 14/08/2026 by Alumni Priya Jain of Dept.of.Interior Decoration to explore creative approaches in hospitality interior design. The session focused on theme development, space planning, furniture layout, lighting, and decor inspired by birds and nature. Students learned how to transform a design concept into a functional aesthetically pleasing restaurant environment. The workshop also highlighted the importance of materials, colours, textures, and ambience creation in themed restaurant projects. The program enhanced students understanding of conceptual thinking, interior detailing, and practical restaurant design execution.

12) Activity on Space planning in Interior Design

Final year students made the activity on Space planning in Interior Design, 17/08/2026 which explore important factors such as natural lighting, ventilation, room dimensions, accessibility, functional zoning, ergonomic dimensions and circulation

13) Architectural Documentation of Wadiyar Centre of Architecture

The architectural documentation of Wadiyar Centre of Architecture was organized on 24/08/2026 for final year students which helped them to understand its planning and design features. They studied the building layout, spatial organization, circulation, and functional spaces. The study included details of materials, structural elements, façade, lighting, and ventilation. Students also observed how the building responds to its surroundings and climatic conditions. Overall, the documentation provided valuable practical knowledge about architectural design and construction.

14) **Guest lecture on "Minimalism in Café Design-Concept to Execution".**

Guest Lecture was organized for the Interior students on 25/08/2026.

- To understand the principles and philosophy of minimalism in café interior design.
- To explore space planning, functionality, circulation, and efficient use of space.
- To learn about materials, colours, lighting, furniture, and décor suitable for minimalist cafés.
- To understand the process of developing a café design from initial concept to detailed execution.
- To gain practical insights into real-world design challenges, site execution, and industry practices.

15) **Workshop on "I Build Interiors".**

Workshop was organized for the final year Interior students at Hebbal, Mysuru. On 31/08/2026.

- To understand the complete process of interior design from concept development to execution.
- To learn about space planning, material selection, furniture, finishes, lighting, and detailing.
- To gain practical knowledge of construction methods and interior installation techniques.
- To explore real-time site challenges, coordination, budgeting, and problem-solving during execution.

- To develop hands-on understanding of industry practices and the skills required to successfully build interior spaces.

16) Faculty Development Programme on **"Generative AI for Polytechnic Educators"**.

The Faculty Development Programme on **"Generative AI for Polytechnic Educators"** was conducted from 16th to 18th September at JSS Polytechnic for Women, Mysuru. The programme was organised by the **Architecture Department** for all Polytechnic staff members to enhance faculty knowledge of Generative AI. The sessions focused on the use of AI tools for teaching, learning, content creation, and academic activities. Faculty members gained practical insights into the effective and responsible use of AI in education. The programme helped to improve digital skills and encouraged the adoption of innovative teaching methods.

17) **Industrial Visit on Residential Interiors.**

Construction visit was organised for final year students on 25/09/2026 at Vijayanagar, The industrial visit on residential interiors helped student to understand the practical aspects of interior design and planning. Students observed different materials, furniture, lighting, and colour combinations used in residential spaces. The visit gave them knowledge about space planning, construction methods, and finishing techniques. They also learned how designers coordinate with clients, contractors, and other professionals. Overall, the visit provided valuable practical exposure and connected their classroom learning with real-world applications.

18) **Workshop for Faculties on "Confidence Building"**.

The workshop on **"Confidence Building"** was conducted for faculty members on 28/09/2026 at JSS PDA. The session focused on developing self-confidence and effective communication skills. Faculty members participated in activities and discussions designed to improve confidence and teamwork. The workshop also highlighted the importance of positive thinking and professional development. Overall, the session was informative and helped faculty members strengthen their confidence and interpersonal skills.
