About NITTTR, Kolkata:

National Institute of Technical Teachers' Training & Research (NITTTR), Kolkata was established in 1965 as Technical Teachers' Training Institute (TTTI), Calcutta. This was the first among four such institutes (other three being at Chandigarh, Bhopal & Chennai) established by the Dept. of Education, MHRD, Govt. of India as fully centrally funded autonomous institutions for providing pre & in-service training to the teachers and staff of Degree and Diploma level training institutions and also for conducting various activities related to quality improvement of the technical education system of the country.

The focal activities of the institute are (i) Education & Short-term Training, (ii) Curriculum Development, (iii) Learning Resources Development, (iv) Research & Development and (v) Extension Services & Consultancy. AICTE has recognized the Short-term training programmes conducted by the Institute for consideration for the purpose of movement to higher grades under the Career Advancement Scheme (CAS).

About JSSPolytechnic for Women:

Jagadguru Dr. Sri Sri Shivarathri Rajendra Mahaswamiji had a foresight that if women were given professional education, a strong nation could be built. Such a vision led to the initiation of JSS Polytechnic for Women at Mysore in 1980. The Institution attained grant in aid status in 1983. After having rendered commendable services, the Polytechnic celebrated its Silver Jubilee in the year 2005.

The Polytechnic, which **got Accreditation** from NBA for 4 of its Programmes for 3 years up to June 2019, is in the premises of the JSS Technical Institutions' Campus and has a commendable infrastructure supported with full fledged staff, state-of-the-art laboratory and library. The Polytechnic is offering 8 diploma courses with a total strength of about 900 students to suit the demands and trends of the modern world.

In addition to imparting formal diploma education, informal training programs are being organized under the scheme "Community Development Through Polytechnic" sponsored by MHRD**,** in order to provide employment opportunities for the needy.
.

Course Objectives:

The course enables the participating teachers to understand today's complex network infrastructure and its various parts and their configuration from individual networked computers to cables, wireless access points, routers, switches, backbones, network protocols, and network access methodologies and constantly changing threat environment, challenges in maintaining an effective security posture.

Course Contents:

IP addressing scheme, Routing mechanics and protocols, WAN protocols, Packet multiplexer over wireless network, Sensor routing, Multimedia networking, DHCP, DNS, Network management, Security breaches, Digital signature, Cellular network, Broadband network management, Error detection and error correction, Virtual network and resources virtualization.
